

LAND USE PLAN NEWSLETTER #1

What is a Land Use Plan?

A Land Use Plan is a general document that establishes a vision for how the community will grow over the years. It provides a set of policies (i.e., rules) and maps which establish objectives and provide guidance for the physical development of the community.

We have started the exciting process of developing our Land Use Plan!

The Land Use Plan will Help Us To:

- Define our long term goals and visions for our Lands
- Provide guidelines for future community development
- Plan development in a way that protects our valued resources
- Serve as a basis for policies, regulations and decisions related to land use and development

Key to the Land Use Plan success is your input and knowledge!

Over the next several months we will be engaging Cheam members and seeking your involvement and input in a variety of ways including, but not limited to :

- Open Houses;
- Photo Surveys;
- Elders and Youth Focus Groups;
- CP Meetings; and
- Graffiti Boards.

The aim of these activities is to understand your vision and goals for your future!

Planning Process

Our Partner

Cheam First Nation is partnering with a team of land use planning professionals from Dillon Consulting to co-develop the Land Use Plan. Dillon brings experience creating land use plans for First Nation clients across Canada including several other Stó:lō communities.
