CHEAM FIRST NATION

Community Advisory

Flooding / Emergency Preparedness

As we are anticipating the third atmospheric river in a week to hit the Fraser Valley, we would like to remind the Community that there are resources available to guide you through the steps to protect yourself, your family, your property and your community. Please refer to the links included below for more detailed information. We encourage all community members to prepare for a potential power outage by having flashlights, batteries and food ready, filling jugs with water and ensuring your cell phones are charged.

The provincial government has compiled flood-specific guidelines on its [website](#), which includes making grab and go bags and protecting your home.

As water supplies could potentially be affected, please make sure to create an [emergency water supply](#). Health and food related resources have been posted on the [Cheam website](#).

In case power in the community goes out for an extended period of time, staff stands at the ready to open the gym overnight for those who need food and a place to rest. The situation is being monitored constantly and any notices will be posted to social media. Please share with community members who don't have access.
