

**Our Spiritual Beliefs and Practices
will survive the pandemic.**

Let's survive the pandemic to practice them.

**People who are fully vaccinated are still getting sick
with Omicron.**

**Omicron is most dangerous to the unvaccinated, Elders,
and those fighting existing illness.**

**Vaccines reduce the risk of severe illness and
hospitalization, but you can still get it and still spread
it.**

**Any large gathering is an opportunity for
the mass spread of COVID-19.**

Stay home when you feel sick

Wash hands and sanitize

Wear a mask

**Maintain physical
distance**
