ATTENTION DOG OWNERS

In the past week we have been receiving calls regarding DOGS running loose. Some dog owners are simply not tying up their pet that cause this issue. It can get dangerous for the community members to walk around for fear of being attacked by dog(s). We fear for the children and elder's safety.

Compensation for First Nations Child and Family Services and Jordan's Principle

Who will be eligible for compensation

On June 30, 2022, the Assembly of First Nations (AFN) Executive Committee approved a final settlement agreement (FSA) of \$20 billion in compensation for children and their families discriminated against by the Government of Canada's underfunding of the First Nations Child and Family Services (FNCFS) Program or narrow application of Jordan's Principle.

The following First Nations individuals may be eligible for compensation:

- Those who were unnecessarily removed from their homes on-reserve and in the Yukon as children from April 1, 1991 to March 31, 2022.
- Those who faced a delay, denial or service gap for an essential service that they needed as a child because of Canada's narrow application of Jordan's Principle, between April 1, 1991 and November 12, 2017.
- The primary caregivers of eligible individuals in these groups.

Please note: Compensation and final eligibility details will not be available until the FSA has been approved by the Canadian Human Rights Tribunal and the Federal Court of Canada.

FREE SOMATIC TRAUMA THERAPY FOR CHEAM MEMBERS

Story is important, but for Somatic Trauma Therapy, we focus on the body and its own way of telling that story.

The goal of somatic trauma therapy is to drain some of the weight of the past in a safe way. Somatic trauma therapy will be run in groups of 4 people, meeting weekly, for 12 weeks. Consider how committing to this program would affect other parts of life. Intake is ongoing.

In small groups we learn to focus on the experience of the body using:

- * Body focused grounding tools
- * Present moment awareness
- * Some learning about how emotions help with somatic therapy
- * The last portion of the meeting is somatic trauma therapy. People are guided through the process of giving control of their body over to their body. There is often some shaking, or crying, or other involuntary movement or sounds. This is part of the body's instinctive process of resolving being traumatized.

We aim to keep it as safe, and gentle as needed.

Information sessions are one on one with Winchester Victor. They can be booked with Diana Giroux (604)-794-7927 or Winchester: winchester.victor39@gmail.com

"Being cut off from our own natural self-compassion is one of the greatest impairments we can suffer. Along with our ability to feel our own pain go our best hopes for healing, dignity and love."
